HVAC
HVAC provides instruction for an entry level technician. Learn install and service of residential and light commercial heating and air conditioning equipment. Hands-on training is completed on equipment installed in the lab as well as state-of-the-art trainers.

COURSES AVAILABLE Heating, Ventilation, & Air Conditioning (HVAC) 180 Hours

RESIDENTIAL WIRING & ELECTRICITY
Get prepared with the knowledge and skills needed for employment in the residential electrical trade. This program offers a basic framework of electrical theory and provides the hands-on skills needed to install, service and maintain electrical equipment in residential settings. Work on trainers and live projects to install and troubleshoot electrical wiring, fixtures and equipment.

COURSES AVAILABLE Residential Wiring & Electricity 240 Hours

PLUMBING
Learn the challenging field of plumbing service and installation by combining theory and hands-on practical lab experience. Plumbing math, plan interpretation, material list development, system design and installation and current code application are just a few of the areas covered. Plumbers are in demand, kick-start your career with a job that cannot be outsourced.

COURSES AVAILABLE Plumbing Technology 240 Hours
